

TRANSPORTATION

LISTENING SESSION - WESTERN WASHTENAW

The right transportation system is critical for any community. With continued growth in Washtenaw County, we're facing transportation challenges that must be addressed with intention, transparency, and full participation from our residents. Creating an effective plan begins with the opportunity for everyone who touches our transportation system to provide valuable input.

Join Washtenaw County Commissioners Shannon Beeman, Jason Maciejewski, and Jason Morgan at Sharon Township, 18010 Pleasant Lake Rd, Manchester Wednesday, March 11, at 7:00 p.m.

1

CURRENT STATE

What transportation is currently available for residents?

2

FUTURE NEEDS

What is the foreseeable demand for transportation?

3

ENVIRONMENT

How will increased transportation impact the local environment?

The listening session will allow residents throughout western Washtenaw County to voice their ideas, priorities, and concerns regarding transit and transportation in our community. The first step in the planning process is determining our transportation priorities. After identifying our most critical needs, we will work to create a transportation plan that helps to make Washtenaw a county that works for everyone.
