

# Washtenaw County Waste Reduction Sponsorships

- ✓ Want to **reduce waste** in our community?
- ✓ Have an idea to increase or improve **recycling** or **composting**?
- ✓ Looking to refresh an out-of-date recycling initiative?
- ✓ Want to **educate** your community on green practices?
- ✓ Have other sustainability goals or ideas?

Washtenaw County is seeking **organizations, businesses, municipalities, non-profits,** and **community groups** to apply for matching funding to implement waste reduction projects that align with the county's Solid Waste Plan! Funding variable depending upon project costs.

## Washtenaw County Solid Waste Plan Goals

-  Reduce the overall amount of waste generated with a target of working toward zero waste.
-  Increase waste diversion rates (sending items for reuse, recycling, or composting instead of to the landfill).
-  Develop, support, and monitor education, outreach, and feedback programs.
-  Ensure the safe, lawful, and efficient management of waste streams.
-  Operate collaboratively within the County and regionally outside of the County for a comprehensive sustainable materials management strategy.
