

Community Mental Health Partnership of Southeast Michigan/PIHP	Policy <i>Transition Planning for Individuals Being Released from State Facilities</i>
Department: Clinical Performance Team	Local Policy Number (if used)
Regional Operations Committee Approval Date 11/23/2020	Implementation Date 11/23/2020

I. PURPOSE

To ensure consistency across the region in meeting standards of good clinical practice in transitioning people with severe and persistent mental illness, intellectual and developmental disabilities and serious emotional disturbance from state facilities back to the community.

II. REVISION HISTORY

DATE	REV. NO.	MODIFICATION
10/7/13	1	Written to meet the requirements of the Application for Participation. regional entity effective January 1, 2014.
1/23/17	2	Reviewed per CMHSPM policy.
11/23/2020	3	Reviewed for any needed updates

III. APPLICATION

This policy applies to all staff, students, volunteers and contractual organizations within the provider network of the Community Mental Health Partnership of Southeast Michigan (CMHPSM).

IV. POLICY

Transition planning for individuals being discharged from state facilities shall be individualized, person-centered, strength-based, collaborative, comprehensive, timely, orderly, and focused on the safety of both the consumer and the public.

V. DEFINITIONS

Community Mental Health Partnership of Southeast Michigan (CMHPSM): The Regional Entity that serves and is comprised of the four-county affiliation of Lenawee, Livingston, Monroe and Washtenaw.

Community Mental Health Services Program (CMHSP): A program operated under chapter 2 of the Mental Health Code as a county community mental health agency, a community mental health authority, or a community mental health organization.

Regional Entity: The entity established under section 204b of the Michigan Mental Health Code to provide specialty services and supports.

State Facility: A center or hospital operated by the Michigan Department of Community Health which provides services for people with serious mental illness, serious emotional disturbance and / or persons with developmental disabilities

VI. STANDARDS

- A. The CMHSP is responsible for planning and implementing community placement for each of its consumers who are being discharged from a State Facility and who do not object to being so.
- B. The CMHSP will begin the Transition Planning process within 30 days of admission.
- C. CMHSP designated staff will make efforts to ensure that the Transition Planning process is a collaborative team endeavor involving CMHSP clinicians, State Facility staff, the consumer, family members, guardians and potential post-discharge care providers.
- D. CMHSP is responsible for ensuring that the Transition Planning process includes practices that incorporate
 - 1. engaging all involved and interested parties
 - 2. conducting regularly scheduled meetings
 - 3. including consumer/guardian preferences wherever possible
 - 4. educating and training post-discharge care-givers/providers
 - 5. supporting post-discharge medical necessity
 - 6. incorporating relapse planning
 - 7. post-discharge relationship building
- E. The CMHSP will take the lead in arranging and facilitating periodic Transition Planning meetings with involved individuals to assess consumer status and move the planning process forward.
- F. Designated CMHSP staff will assess the need for and implement educational and training activities for family members and potential post-discharge care providers regarding the consumer's needs, service options and relationship building. When applicable, consumer-specific information regarding past relapse triggers and the associated signs and symptoms will be included in the training.
- G. The Transition Plan will include a post-discharge plan to reduce the likelihood of re-admission to a community hospital or a state facility.
- H. CMHSP staff will ensure that efforts are made to engage the consumer and/or her or his legal representative in voicing preferences for a post-discharge living arrangement, such as location and other related issues.
- I. A consideration of community options will include standards and principles of medical necessity, least restrictive setting and the safety of the person and those in the surrounding community.
- J. The Transition Plan will assess and honor the factors that contribute to a person's feelings of safety, respect, respect from others, and engagement with service providers.
- K. The Transition Plan will include relationship-building strategies wherever indicated.

- L. The Transition Plan will include an assessment of the consumer's post-discharge medical needs, and the CMHSP will be responsible for ensuring that necessary medical appointments are arranged and integrated into the consumer's Individual Plan of Service (IPOS).
- M. The Transition Planning group will ensure that written instructions for potential providers of care are completed either as part of the Transition Plan or as part of the IPOS.
- N. As indicated, there will be a safety/support plan in place for the consumer prior to discharge that addresses individualized needs for assistance with medication adherence, personal safety, environmental safety and services that match the consumer's needs.
- O. The CMHSP will ensure that all post-discharge supports and service providers are competent in meeting the needs unique to individuals exiting state facilities while utilizing Culture of Gentleness principles.
- P. The CMHSP will make efforts to arrange for pre-discharge visits to the person's home, including at least one overnight visit, when indicated.
- Q. The CMHSP will arrange for and facilitate post-discharge team meetings with current service providers to evaluate and revise, as needed, the IPOS
