

PRE-TREATMENT PUBLIC NOTICE for HURON RIVER CHAIN OF LAKES

PRE-TREATMENT NOTIFICATION

This notice is being mailed at least 7 and not more than 45 days prior to the first herbicide application on the lake. Please take the time to read this notice; it is for your information and safety!

Property owners with riparian rights on the lake plan to have the lake treated for control of nuisance and invasive aquatic plants and algae. This notice is being distributed at least 7 days prior to the initial treatment in accordance with the Michigan Department of Environment, Great Lakes, and Energy – Aquatic Nuisance Control permit requirements.

A permit for the treatment will be issued by EGLE-ANC before any treatments take place. The herbicides will be applied by wands, surface booms, and/or subsurface injection lines. Each lake is treated according to treatment plans prepared by the lake manager and approved by the lake board, association, or riparians. Prior to each treatment, an 8.5" x 11" brightly colored sign will be placed along your shoreline. The signs provide information about the treatment, including the date of the treatment, the products used, and the water use restrictions following treatment.

We will use only products that are approved for use by the United States Environmental Protection Agency, Michigan Department of Agriculture and Rural Development, and the Michigan Department of Environment, Great Lakes, and Energy – Aquatic Nuisance control permit. When multiple herbicides are applied, the longest water use restrictions will be communicated. These water use restrictions are designed to allow the safe use and application of these products. Please do not encourage anyone to use the water in violation of the posted restrictions. If you have any questions, please contact:

The following is a list of herbicides that may be applied to the lake as part of the aquatic plant management program. The table includes the maximum water use restrictions associated with each herbicide.

Active Ingredient	Do not swim for:	Do not irrigate turf for:	Do not irrigate ornamentals for:	Do not irrigate food crops for:	Do not water livestock for:	Do not use as drinking water for:
Copper Sulfate	N/R	N/R	N/R	N/R	N/R	N/R
Copper Ethanolamine (Chelated Copper)	N/R	N/R	N/R	N/R	N/R	N/R
Copper Ethylenediamine (Chelated Copper)	24 hours	N/R	N/R	N/R	N/R	N/R
Sodium Carbonate Peroxyhydrate	24 hours	N/R	N/R	N/R	N/R	N/R
Endothall	24 hours	N/R	N/R	N/R	N/R	N/R
Diquat Dibromide	24 hours	3 days	3 days	5 days	1 day	3 days
Flumioxazin	24 hours	2 days	2 days	2 days	N/R	N/R
Carfentrazone	24 hours	14 days	14 days	14 days	1 day	1 day
2,4-d	24 hours	N/R	Up to 120 days	Up to 120 days	N/R	Up to 21 days
Triclopyr	24 hours	N/R	Up to 120 days	Up to 120 days	N/R	N/R
Florpyrauxifen-benzyl	24 hours	N/R	Up to 35 days	Up to 35 days	24 hours	N/R
Fluridone	24 hours	14 days	14 days	14 days	N/R	N/R
Glyphosate	24 hours	N/R	N/R	N/R	N/R	N/R
Imazapyr	24 hours	N/R	N/R	N/R	N/R	N/R
Adjuvant	N/R	N/R	N/R	N/R	N/R	N/R
Shade Products (Dyes)	24 hours	N/R	N/R	N/R	N/R	N/R

N/R = "No restrictions"

*There are no restrictions on using treated lake water for domestic uses (e.g., laundry, dishwashing), fishing, or consuming fish.
