October 30, 2010

Washtenaw County Clerk  
Matt Yankee  
Via email

Mr. Yankee,

Below is my statement of justification, exactly 200 words. I am sending this as a word document attachment to hopefully save your office the time of data entry. I will put a signed copy in the mail today. Please forward a proof copy before sending the ballots to the printers.

Thank you,

This recall petition wastes taxpayers' money and disrupts my ability to serve residents.

Requests to 'view' originals of Township Minutes are honored by appointment through the Township approved Freedom of Information Act Request (FOIA) form. Copies are instantly available on the township website and in the township hall lobby.

In one 4-hour appointment, McDonald arrived soaked in rotten fish guts which sickened employees. In others, he stormed out in a rage, or was a no-show.

McDonald filed 200 requests during the 2008 elections and disrupted residents doing township business to promote his wife's election at the expense of township residents.

McDonald filed complaints with the State Police wasting valuable and scarce resources. The Prosecuting Attorney found no grounds for prosecution.

McDonald filed and lost a lawsuit. He paid the township \$5,000.00 for legal fees and signed a consent judgment barring him from future FOIA requests. McDonald's verbal requests cited in his recall petition were in violation of this court order.

State law requires requests be in writing, supported by Attorney General and Prosecuting Attorney's offices.

McDonald's personal stalking and harassment resulted in a Personal Protection Order issued by Washtenaw Circuit Judge Archie Brown.

The reasons for recall are not true.
